ОПИСАНИЕ:

Series of ceiling mounted luminaires available in 4 diameters (80 mm, 270 mm, 570 mm, 970 mm), using high-output LEDs, Retrofit LEDs, 12V halogen lamps, metal halide and fluorescent sources. Aluminium body available in different two-coloured versions: beige/white, grey/white and black/orange. Tagora 80 and 270 offer high-output spot light with aluminium optics. 2 beam angles for LED version and 3 for HIT version. Tagora 270 LED uses a proprietary system based on a hybrid combined lens and reflector optic. This system helps to create defined narrow beams using high-powered LED modules of large dimensions. Tagora 570 and 970 come with a PMMA diffuser, offering a comfortable diffused light. LED versions use high-output sources. Monochromatic LED option with warm white (3000 K) and neutral white (4000 K) tones. Integrated electronic power supply, dimmable or non-dimmable options, depending on the version. Emergency lighting available on Tagora 570 fluorescent option. Only ceiling mounted installation allowed. Compliant with standard EN60598-1 and other specific standards.
